### About Me

I'm a **Computer Science** graduate and passionate **MERN stack developer** who has got a strong foundation in Full-Stack Development. Over time I've built and deployed multiple **dynamic, scalable** Web applications which solve the **real-world problems** of the community. I'm continuously **learning and getting hands on experience** with latest technologies to stay ahead in the ever-evolving tech industry.

### Technical Skills

**Frontend:** ReactJS, NextJS, Redux, HTML, CSS, JavaScript, TailwindCSS

**Animation:** GSAP, Motion, AnimeJS

**Backend:** NodeJS, ExpressJS, RestfulAPI

**Database:** MongoDB

**Version Control:** Git, Github

**Deployment:** Netlify, Vercel, Render

### Education

**Jawaharlal College of Engineering & Technology**

*Bachelor of Technology in Computer Science, CGPA – 7.91*

**Nov 2021 – Apr 2025**

*Palakkad, Kerala*

### Projects (Demo-Credentials of all Projects)

**ReveaLink – Anonymous feedback platform** | *NextJS, MongoDB, NextAuth, Resend* **(Live-Preview)** **May 2025**

- It is an anonymous feedback platform that allows users to generate unique links to receive honest, anonymous messages from others. Built with a focus on privacy, it helps users gather honest opinions or insights without revealing the sender's identity.

**EaseAppoints – Seamless appointment scheduler** | *ReactJS, NodeJs, MongoDB* **(Live-Preview)** **February 2024**

- This platform is intended to let children who live overseas arrange doctor's appointments for their aging parents at a distance. It guarantees efficient care from a distance by facilitating smooth coordination between patients, doctors, and neighborhood pharmacies.

**Personal Portfolio Website** | *NextJS, FramerMotion, Shadcn* **(Live-Preview)** **May 2025**

- A clean and responsive portfolio website showcasing my skills, projects, and technical expertise as a full stack web developer.

### Achievements & Certifications

**District-Level Finalist – Young Innovators Programme (YIP 5.0)** **February 2024**

- \* Selected for the Young Innovators Programme (YIP 5.0) by the Kerala Government for my project EaseAppoints — progressed through inter-college and Intercollegiate rounds to the district-level presentation stage among top student innovations

**Recognized by Nehru Group Business Incubator – Smart Transit Guardian** **January 2025**

- \* Co-developed Smart Transit Guardian, an intelligent traffic management system designed to optimize emergency vehicle routing by providing real-time data on railway gate closures and road construction. The project was recognized for its innovation in public safety and selected for review by the Business Incubator at Nehru Group of Institutions for its real-world potential and innovation in public safety.

**National Level Workshop on Full Stack Development** **June 2022**

- \* Participated in a hands-on workshop on full stack web development, gaining practical experience in frontend, backend, database integration, and deployment using modern tools and frameworks.

**Backend Development** **Mar 2022**

- \* Completed a certified course on building scalable backend applications using Node.js, Express.js, and MongoDB, with a focus on RESTful APIs, server-side logic, and database operations.
